SELECTMEN'S REPORT.

To the Legal Voters in Town meeting assembled :—

The Selectmen would respectfully present the following reports of the several town officers for the year ending Feb. 14th, 1896 :—

The town is to be congratulated on its financial prosperity, for notwithstanding the fact that extensive repairs have been made upon the town house, and free text books have been furnished by the town, there is still enough money to defray all expenses, and leave a small balance in the treasury.

A tax of ninety or one hundred cents on a dollar of the grand list will probably raise a sum sufficient to defray all expenses of the coming year.

The claim in district No. 1 was settled in a satisfactory manner early in the year. The suit which was pending against the town is still unsettled.

The two principal events which mark the progress of the town this year, are the renovation of the town house, and the establishment of a free public Library. In the first instance, the old town house, which was becoming a disgrace to the town, has been enlarged and thoroughly repaired, and we now have a handsome and commodious hall, well warmed, seated, and lighted, and to judge by the frequency with which it is occupied, well appreciated by the public.

So far, it has been warmed and lighted at the expense of the town, and a small rent charged to parties using it.

A room in the basement is devoted to the library, which is

open every Saturday afternoon and evening, and is well patronized.

For further information see report of Trustees.

The following is a list of orders drawn by the Selectmen for the year beginning March 5th 1895, and ending February 14th 1896.

SCHOOL SUPERINTENDENT'S REPORT.

The Common Schools of the year just passed compare favorably with preceding ones. It is said that "Schools are what teacher's make them."

There may be some truth in the saying, yet no teacher can have a brilliant school without bright pupils; and the co-operation of parents tends greatly to increase the benefit of the teachers' efforts, while their neglect or indifference produces a contrary effect. Many parents allow, and perhaps encourage their children to be absent from school to such a degree that their days of absense outnumber the days of attendance. The result is plain, the scholar drops from its class into a lower grade, to the discouragement of both teacher and scholar. This negligence of parents to keep their children in school deserves censure. It begets idleness which leads to mischief. Names of pupils which appear on the register with or without marks, show generally what pupils are making the most improvement in their studies.

A noted feature of the school register is the absence of the names of parents on the page of "Visitors' Record."

The new books have been a great advantage to the schools in general, and the scholars have taken unusually good care of them.

The greatest progress has been made in the schools where the same teachers have remained through the year.

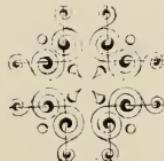

It would be well to bear in mind that, aside from the expense of new books, and the painting of three school-houses, namely, No's. 9, 6, and 1, the expenses are less than one year ago. I doubt if Westford wants to put the teachers' wages so low that they cannot have the best, as in years past.
